

Carbon Allocation In Plants

Advances in carbon allocation and acquisition

Workshop 20th-21th November 2023

SESSIONS

- Transport of sugars •
 - Carbon uptake and storage in plants •
 - Modeling and source-to-sink relationships •
- Sugar homeostasis under contrasting environments •
- Sugar allocation and interactions with microorganisms and pests •
 - Ecophysiology of the carbon cycle •

International Scientific Committee

Sylvie Dinant
John Lunn
Ekkehard Neuhaus
Nathalie Pourtau
Ruth Stadler

Local Scientific Committee

Fabien Chardon
Xenie Johnson
Rozenn Le Hir
Frédéric Rees
Norbert Rolland
Françoise Vilaine

Invited speakers

Franziska Fichtner
Alexander Schulz
Uwe Sonnewald
Christiana Staudinger
Kathy Steppe
Andreas Weber
